How I'd explain ChatGPT to a 5-year-old

ChatGPT explained to kids (1/2)

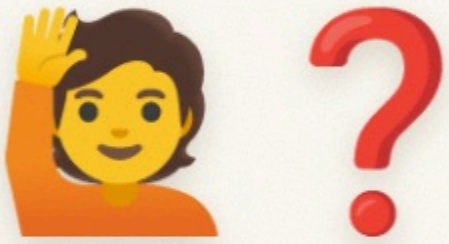

by @thedataguy16

Prompt

Ask your teacher a clear question and you get a clear answer. Mumble and you get a guess.

```
Prompt: "SQL for total sales by city"
```

Context

Tell the shopkeeper the gift is for your sister's birthday, and he picks something better.

```
Context: "Columns: city, sales, date"
```

Example

Show your little brother one solved sum. Now he can do the next one himself.

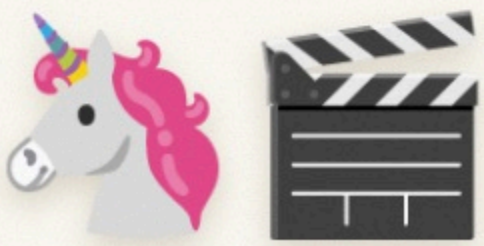

```
Example: "pune" -> "Pune"
```

Hallucination

A friend who tells a confident story about a film he never watched.

```
Never trust it unchecked
```

Check the answer

Count your change after buying sweets, even from the nicest shopkeeper.

```
SELECT SUM(amount) FROM orders;
```

Temperature

Low: the same bedtime story every night. High: a new twist each time.

```
temperature = 0 for facts
```

ChatGPT explained to kids (2/2)

by @thedataguy16

Explain my code

Grandpa explaining an old family recipe, one step at a time.

```
Prompt: "Explain this formula line by line"
```

Clean my data

Mum sorting a pile of mixed-up socks into neat pairs.

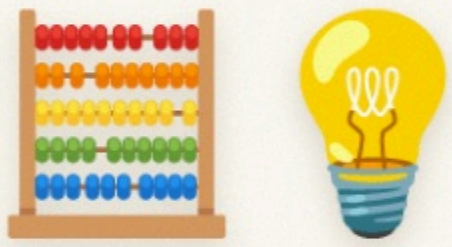

```
Prompt: "Trim spaces, fix case in column A"
```

Write a formula

Asking the class topper how he solved it, then trying it yourself.

```
Prompt: "Excel formula: sales above 1000"
```

Privacy

You never shout your home address across the playground.

```
Remove names and phone numbers first
```

Break it down

Eating a big laddoo in small bites, not all at once.

```
Prompt: "Step 1: clean. Step 2: summarise"
```

Your job

A calculator helps with sums. You still decide what to add.

```
AI drafts. You check. You decide.
```
