How I'd explain Machine Learning to a 5-year-old

12 ideas from one school day.
The real Python under each.

Machine Learning

explained to kids (1/2)

by @thedataguy16

Data

Your class register. Every row is one child, every column is one fact about them.

```
pd.read_csv("class.csv")
```

Features (X)

The clues you look at before guessing: height, age, how fast you run.

```
X = df[["height", "age"]]
```

Label (y)

The answer you want to guess, like who wins the school race.

```
y = df["won_race"]
```

Training

Show a child many mango pictures until they can spot a mango alone.

```
model.fit(X, y)
```

Prediction

You see dark clouds in the morning, so you pack an umbrella for school.

```
model.predict(X_new)
```

Train / test split

Teacher keeps some questions hidden for the final exam, not the practice sheet.

```
train_test_split(X, y, test_size=0.2)
```

Machine Learning

explained to kids (2/2)

by @thedataguy16

Classification

Sort every sweet into one of two boxes: chocolate or not chocolate.

```
LogisticRegression()
```

Regression

Guess how many runs your team will score. A number, not a box.

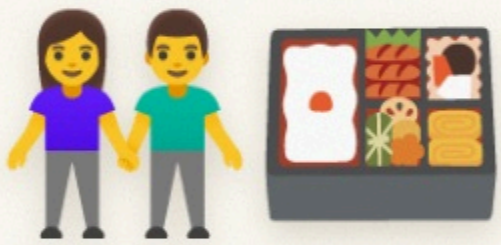

```
LinearRegression()
```

Clustering

At lunch, kids make their own groups. Nobody tells them who sits where.

```
KMeans(n_clusters=3)
```

Decision tree

Twenty questions game. Is it red? Is it round? Then it is an apple.

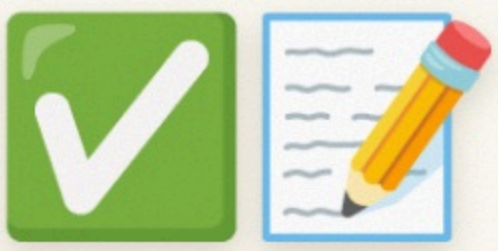

```
DecisionTreeClassifier()
```

Accuracy

Out of 10 spelling words, you wrote 8 correctly. That is 80 percent.

```
accuracy_score(y_test, y_pred)
```

Overfitting

Mugging up the answer key. Full marks in practice, lost in the real exam.

```
model.score(X_test, y_test)
```

☆ THE 90-DAY SYSTEM · 5.0 BEST SELLER

Become a data analyst in *90 days*.

Open it every morning. It tells you what to learn, build and ship that day. 1 hour a day, no coding background needed.

DAY 1-21	DAY 22-45	DAY 46-65	DAY 66-90
Excel + Stats	SQL	Power BI	Python + Jobs

27
portfolio projects with real data

100+
interview Q&As with model answers

365
days of 1:1 mentor access

10+
job applications sent by Day 90

0 to job-ready, one day at a time

Built by Abhishek · 7 yrs in data · 31,000+ helped
